COPERNICUS WORKSHOP PARIS 2017/03/30

- On the content : globally achieved objectives :
 - To better know COPERNICUS ⇒ Another contribution,
 - To arise final user's needs ⇒ Only through services' companies,
 - To clarify opportunities for companies ⇒ Hopeless if not,
 - To bring coordination between GI stake-holders in France ⇒ An intricate situation,
 - To deepen consistency COPERNICUS / in situ data ⇒ IGNF presentation,
 - To make recommendations to French COPERNICUS contact point ⇒ Done,
 - To make recommendations to European level (EC, ESA, EEA...), via EUROGI or other bodies ⇒ Done in Brussels 2017/03/31, still to progress.

- **On the style : a real synergy CNIG – AFIGEO : knowledge of the institutional background on the one side, event knowhow and companies network on the other side.**
